

Siem Reap, Cambodia, **JULY** 2016

Dear **Benefactors** and **Friends**

I am pleased to write to you and share all this update about our program HOME CARE for children living on DEI KOMA – The Children’s Land.

Gradually they have adapted to their new home, and every day we work together to improve the areas in need.

The youth are growing very rapidly and constantly creating their future educational plans with a view to creating their own better future with the help of hard work and education.

The children prepared to go to **Future Bright International School (FBIS)** from Monday to Saturday. Here they have classes for Primary, Secondary and High School graduates.

In the Library we have in **JAVI School**, with books in Khmer, English and Spanish, as well as many educational and fun games. On many occasions, this space is also used for meetings to decide on issues related to daily living conflicts or presentations of all kinds.

In **JAVI School** we teach refresher subjects as Elementary **KHMER** and **MATHS** and also language classes, **ENGLISH** and **SPANISH**, as well as a classroom designed for computing. With new facilities and selecting qualified teachers.

Taking this opportunity to Thank **LURDES**, for **volunteering** as a teacher of foreign languages for **8 months**.

Seminar in Phnom Penh on the **Earth Leadership**, care for and love our planet, given by hand of **HEDC** with **Christopher Lee** and his team.

Visiting museums relating to a period of the most recent bloody history, the Khmer Rouge.

Time to visit the sea, take one of our "older girls", who at 85 years had not seen the sea, and also time for caves with stories of dragons.

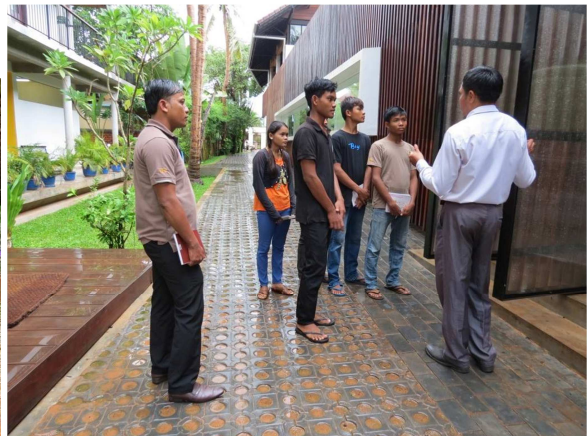

S and R at the **Hotel School Don Bosco**, where they are studying as Receptionists and ... a surprise visitor who see them frequently to further strengthen their ties.

Visiting **Technical Schools** to better understand the hopes and possibilities for everyone. Thank you very much to **Don Bosco Technical Schools** for their warm welcome and explanations of their programs **Hospitality and Administration**, and also the **Sala Bai Hotel School**, for its warm welcome and detailed explanations.

And also we have time to enjoy ourselves very well with crafts and playing, because playing is very important for all children of all ages. In the images you can see us making our bamboo and paper dolls for the annual Puppet Parade.

And **Sports**, essential to grow healthy and strong !. We love to play football, volleyball and basketball.

A note of thanks to the **Real Madrid Foundation** for its social and sports work through schools and programs for the youth, for the values they teach us using sport as the key to developing teamwork, leadership, commitment and much more. Thank you for all the sports clothes that we get every year, and **Rosa R**, Director of International area and the whole team for their kindness every time we visit them. Rosa came to our facilities and shared these unforgettable moments, especially for younger children.

Rosa in DEI KOMA giving “after match” presents to the players. **Ana, Lidia, Rosa y Carmen** in a meeting last May at the **Real Madrid Foundation** in Madrid. Ana Y Rosa are our fairy godmothers!.

I am also happy to let you know that we have two new children L and R, 7 and 8 years, into our home. Our aim is to incorporate more children who are living in a risky situation making them vulnerable. We recently received the news of a parent who has committed suicide for being unable to support his family and left 7 small children - we are finding out what has happened to these children and if there is anything we can do. I tell you this story to keep you updated and so that you know some of the stories and events that are happening around us.

Therefore, here I take the opportunity to make a **CALL to ACTION** for those who can contribute to the maintenance of the new children. The annual cost to help each child is \$US1,200 – this covers Nutrition, Hygiene, Health, Clothing, Caregivers and more. **It can also be shared** between several people, as many Benefactors donated monthly 10€, 20€ and 100€ to built a building, why they will not be able to do the same for care in the maintenance of a child. Also some people or organizations may be able to take care of the complete maintenance, please also contact me so that we can start. Donations can be monthly, semester, annual.

I would also like to clarify, even though you may give \$US1,200 for a child, the actual money donated is distributed among all our children. You can see this in our annual budget named **'Home Care'**. To be clear, we will not assign the donation to a specific child, rather it is used to help all our children as needed. For example, we buy shoes when there is sufficient budget to buy shoes for all children and not just for the children that have specific sponsors.

On the other hand you can also sponsor specific elements of the annual budget for all children such as Rice, Footwear, Clothing, Electricity, and more. If you are interested in this then please ask me and I will let you know what we could do.

For you information, the childrens' education is financed on a separate budget that varies depending on the academic level of each child, as there are different levels and different educational programs. Here each Benefactor contributes to the education of a child in particular, which receives academic results, invoices and other information.

Do not hesitate to ask any question that will arise, we will be happy to answer YoU.

Thank you very much to all the People who make it possible
