

Siem Reap, Cambodia, February 2019

Dear **BENEFACTORS & FRIENDS.**

We have started 2019 with a series of **EDUCATIONAL WORKSHOPS**, implemented in our facilities in **DEI KOMA-The Children's Land**,

- **DENTAL HYGIENE: Prevention and Action.**
- The best way to attack cavities is prevention and we have made a total of **FOUR** informative workshops, with illustrative examples, practices and individual assessment, case by case, to propose a diagnosis and apply a treatment.
- From here we would like to take the opportunity to thank the **PACIFIC SMILES Dental Clinic** in Australia, for being the Benefactors of the 2019 Annual Dental Care budget.

Listening carefully what is going on!!.

- **SOCIAL NETWORKS: Advantages vs. Dangers.**
- Do we think about what young people do in social networks?
- Do we ask ourselves who are their friends in these networks?
- It is surprising to discover how in social networks accepting requests for friendship from people we do not know has become a habit. The young people copy their adults, they want to have many "friends", without caring who they are, for fame, for having social notoriety, to be accepted in a group, and that is when the harassment begins in the networks, and above all it is an open field for pedophilia.

- For those who do not know, there are some chilling facts about the thousands of children and young people who are disappearing due to mismanagement of social networks. They will come into contact with sexual predators, aware of the inexperience that young people have and parents or guardians too busy or oblivious of a fearful reality.

- We cannot prevent our children from using social networks, since they have many good things, and if we forbid it, our children will find the way to do so. At TFC we have decided on an education in the proper use of social networks.

- To begin with, we teach them to only accept friendships from people they know directly, rejecting any request for friendship that comes from strangers; refrain from editing images of their private areas, such as bedrooms or homes; knowing how to block an application; and above all, building the confidence with parents and tutors to tell us about their interactions and social networks, in case they suspect some type of abuse is being committed.

UNIVERSITY STUDIES

- Our young university students are adapting day by day to their new environment, educational programs, research, exams and finally to a new cycle.

TECHNICAL STUDIES

- We are very proud of our students in hospitality, specifically in CULINARIA. During these months, they are practicing at the **Hotel SOKHA**, one of the most emblematic in the city of Siem Reap.

ENGLISH CERTIFICATES

- At **JAVI School**, our school, the English Certificates have been awarded to students who have been studying with enthusiasm and have passed at least 3 levels. Very happy, they received the honors of their teacher and the board of the NGO.

DIAMOND PROGRAM

- We are carrying out assessments to incorporate more people to the Diamond Program, and the 91 year old grandfather named KHATT has just received the first delivery of food, attention and, above all, our love. He lives in a metal and wood house that the family that owns the land has built for him out of compassion for an elderly widower with two children who are unaccounted for.

MARKETING

- We Thanks to **SOLE and CARMEN** for the videos and photos they are working on, after having shared a week of work with us, to gather all the necessary information and reflect it in their work.

CLOTHING DONATIONS

- Many THANKS to the donations of sports equipment that Carmen sent us from the UAE with the collaboration of her friends. We also THANK Liz and Steve for the clothes they brought us in their most recent visit. We would like to take the opportunity to invite as many people as they wish to donate any material that they are no longer using and that is in good condition.

Many THANKS for your TRUST, for your DEVOTION and ENTHUSIASM, but above all, for your LOVE.
